Mrs. Helen M. True, widow of David N. True, died Wednesday morning, Jan. 9, at the home of her sister, Mrs. George W. She married Oct. 17, 1855, David N. True, who was for years a well known business man of South Paris. They came to South Paris in 1864 and resided here until Mr. True's death, occupying the house now owned by Dr. J. G. Littlefield on Pleasant street. Since living in New Gloucester, Mrs. True has been an occasional visitor in South Paris. She was a member of the South Paris Congregational church.

Besides Mrs. Haskell, Mrs. True is survived by another sister, Mrs. Norris of Port Clyde. The funeral was held on Sunday at the home of Mr. Haskell at New Gloucester, and the remains were brought Monday morning to South Paris, where a service was held at 2 o'clock in the afternoon at the house of Hon. A DRASTIC ORDER

Thursday morning the papers under large head lines "All factories to close Friday for the next five days" and making Monday a holiday.

The following appears to be the gist of the New Fuel Order by administrator Garfield:

Beginning Friday morning, all manufacturing plants east of the Mississippi river, except those producing food, shall close for five days, and during the next 10 weeks shall close on Mondays and holidays.

Office buildings may be heated during the five-day period to prevent freezing, but on Monday and holidays they must be closed down.

Newspapers will be permitted to use coal for but one edition a day. This applies to both morning and evening papers. Banks and trust companies are not included in the order unless State governments so specifically declare.

During the 10-week period Monday will be a holiday, just as is Sunday, and stores and shops will be closed. During the five-day period specific stores will be permitted to remain open.

Theatres, billiard rooms, bowling alleys, and other places of amusement must close on the 10 Mondays, but theatres will not close during the next five days.

Flock of Hens Show Profit
Herman L. Horne has a flock of 29 hens and has kept tabs on their doings and returns for a year closing Nov. 1st last and finds a net profit of \$35.00.

In the flock were 11 Rhode Island Reds and 18 Leghorns and the average number of eggs per hen was 28. The profit per hen was a little over \$1.20 each.

Before the rise in feed the average return was considered \$1.25 per hen. This flock comes near the old standard regardless of the increased cost of feed.

Clerks' Ball, Next Social Event
The Norway Clerks' Ball Association are sparing no pains to make their annual ball a success. The ball will be held on Tuesday evening, Feb. 5 at Norway Opera House.

Shaw's augmented orchestra with nine pieces will furnish music, John H. Haselton, promoter. This is one of the best music teams in the county.

Dr. Russell goes to Bath Monday to work in the ship yards as assistant to his uncle, Gilbert Russell, who is engaged as machinist. Mrs. Henry Russell will remain here for two weeks with her parents, Mr. and Mrs. Jesse P. Edwards, until her husband is settled.

Perley Proctor who was taken to C. M. G. Hospital at Lewiston with a broken leg caused by runaway accident. New Year's Day, is as comfortable as could be expected. The X-ray examination disclosed a very bad break of both bones near the ankle.

Robert Bickford was taken to the Central Maine General Hospital Tuesday forenoon suffering with appendicitis. Owing to the storm that delayed the Lewiston branch train, he did not reach the hospital until nearly 7 p. m. An operation was performed in the evening as the case needed immediate attention. He is resting comfortably.

Special Communication of Royal Arch Chapter No. 29 in Masonic Hall Friday evening, January 18. Work in the P. M. degree. At the regular meeting Wednesday, January 23, the M. E. M. degree will be worked.

The school teams from Norway Lake and North Norway were unable to get through Wednesday. In the village both sessions were held and attendance good considering the drifts. Students on snow shoes was a common sight until the sidewalks had been broken out late in the day.

Mrs. Percy Nevers, Mrs. Daniel Daniels and Minnie Littlefield spent the day, Thursday, in Lewiston.

Hugh Pendexter, the author, lectured on "The Short Story" at Bates College Tuesday evening under the auspices of the Spofford Club. The students were invited to enjoy this special privilege.

Homer Truman will wrestle John Sparrow, the "Greek Samson" in Atherton hall at Lewiston, Saturday evening. This man was introduced to the Norway fans some two weeks ago and certainly looked the part for which he is billed. The legends of the Canadian Athletic Club is staging the show. Kid Bolduc of Rochester, N. H., will go with Kid Dione at the same place the following week. Several from here expect to take in the big show Saturday night.

Daniel Dulles and family, who live at Norway Lake, have been quarantined for small pox for six weeks and the quarantine has now been lifted. Mr. Dulles said that he has heard a report that one of his neighbors, Mrs. Eunice Mafston, who has been very kind to them, had put in a bill for \$30 to the town for expenses, which on investigation he found to be false and the report should be stopped.

It is understood the people taking the train for Lewiston Tuesday night, which was late and left South Paris about 9:00 were obliged to remain at Lewiston Junction until morning as the branch train was all day going from the Junction to Lewiston and did not meet the late train.

No train over the Norway Branch Wednesday. The engine was unable to break through and the section men overburdened with main line work could not shovel out. A snow plow and crew from Portland opened the line and the train arrived at a little over 10:00.

Howard D. Lasselle is in Boston visiting his brother, Harry Lasselle and Russell Bethell, who are in Tufts Dental College.

Francis Hall, employed in the Swift Company office, Lewiston, spent the weekend in town with his parents, Mr. and Mrs. F. A. Hall.

A car load of coal and a good wood supply has been received at the shoe factories. This relieves the fuel shortage for the present and continuance of work assured.

The Norway Shoe Co. are operating their factory from 7 until 4 each day because the electric power is unable to carry the full load after dark.

Dick Merrill has returned from Berlin where he has been employed at the Cascade Mills. He is cutting trimmings in the Carroll, Jellerson Co. factory.

John P. Cullinan is clearing the Boober lot at Norway Lake and hauling the cord wood to his yard. Considerable ice is being sold green but a large quantity will go for season stock later.

NOTES FROM THE BOYS IN SERVICE

Camp Greene, Charlotte, N. C., January 8, 1918.

Dear Sir:—We have been unable, up to the present time, to give you any information with regards to what the boys from Norway have been doing, because of an order against this. We can say now, however, that all the boys are in the best of health, and spirits, and are fine courage for the future. Since leaving the forts in Portland Harbor, we have found soldiering in the field is a great deal different than soldiering at the forts where there are barracks. While at Camp Bartlett it was a common occurrence to get up in the morning and find three or four inches of ice on the water in our tents. Since we have been here at Camp Greene, Roy Perham (Kid Perham of Woodstock) and Mike Roy are learning the many art of self-defense. The Brooks brothers have adopted the profession of "crabbing." McAllister and LaFrance are widely known as the Camp Surgeons. Haskell and Desautel find letter writing a great pastime.

Ames (alias Coot) makes one of the best of the boys in the camp. He is a regular old hand at the "Sunny South."

Best wishes to all,
Med. Dept., 1st Vt. Inf.

Guard Badly Injured
Frank L. Jewell of Norway, employed as night guard on the Grand Trunk Ry. bridge over Little Androscoggin river below South Paris station, fell early Sunday morning to the ice, a distance of nearly sixty feet. Both ankles and legs above the ankles were broken and the spine badly injured. He was removed to Dr. Trufant's hospital for examination then taken in a critical condition on the first train to the Central Maine General Hospital at Lewiston. His name is on the list of the injured.

Mrs. Jewell accompanied her husband to Lewiston and will remain through the crisis. Just how the accident happened is not fully known, but in trying to explain, Mr. Jewell said he slipped on the icy stairs and pitched forward over the bridge into the darkness, which are the only clear facts regarding the cause the victim has been able to give.

According to the story told by John A. Porter the other watchman on duty at the time, is that Mr. Jewell followed a freight train across the bridge which is according to orders. The cars were moving slow and while walking and conversing with a person on the train platform, he slipped and pitched over the edge near the abutment. The train crew under conductor Obery were immediately notified and the injured man removed to the station. Dr. H. L. Bartlett of Norway responded to the emergency call and Spiller's ambulance carried Mr. Jewell to Dr. Trufant's hospital for examination.

Mr. Jewell is about 45 years of age, has lived at Norway several years, and has been discharged from Co. D, 2nd M. Inf. last April, when the married men below the commissioned officers were released during mobilizing. He has been watchman on the bridge about six weeks.

Red Cross Chapter Organized
The Norway Auxiliary-at-large was changed to the Norway Red Cross Chapter of Oxford County at a meeting of its members in the Municipal auditorium Wednesday evening, Mrs. Hugh Pendexter, chairman of the auxiliary, presided.

Lewis E. Smith of Boston, Field Representative of the New England Division, spoke interestingly on the Red Cross as a business and humanitarian organization. He explained the Chapter, its relation to the several local auxiliaries and division headquarters at Boston, its aims and methods of procedure. The speaker mentioned that our country is divided into thirteen divisions with a main office at Washington, D. C. Several thousand chapters have been formed at convenient shipping points these being in close touch with many thousands more auxiliaries. This arrangement is for efficiency. This arrangement is for efficiency.

A committee to nominate the officers was appointed by the chairman, Walter S. Chandler and Mrs. Harry P. Jones. The following were reported and elected executive officers:

Chairman—Mrs. Hugh Pendexter.
Vice Chairman—Mrs. Albert L. Buck.
Secretary—Mrs. J. Baker.
Treasurer—Howard D. Smith.
Executive Com.—Lee M. Smith, Z. L. Merchant, Hugh Pendexter, Miss S. B. Prince, Mrs. James N. Fayer, Mrs. Inez S. Cummings, Mrs. Herbert P. Andrews, Elizabeth B. Bell, Agnes J. Beal, Mrs. Arthur W. Baston.

The executive committee will be increased in number shortly including representatives from the several auxiliaries in the Oxford County district. Sub-committees will also be appointed at an early date.

The drive just ended added 335 members to the local auxiliary, making a total of a little over 1000 members. The district has reported to date the following new members: Fryeburg 140, Buckfield 200, Rumford 859, Dixfield 401, Paris 46, Bethel 201, Andover 179, Waterville 68, North Waterford 17, Oxford 189, Lewell 59, East Hallowell 21, West Paris 150, East Brownfield 63, Hebron 642.

Mrs. S. B. Cummings will entertain the Ladies' Circle of the Universalist Church Friday afternoon. At this time will be the reading of the reports and election of officers.

Mrs. Fred Rowell spent the week end with Mr. Rowell at the home of his parents at South Thomaston.

The Home department of the M. E. church will meet with Mrs. Alton Noyes Wednesday, Jan. 23. The lessons will be taken up.

Norway High Defeated Casco High

In a well played game Norway High won over Casco High Friday evening, January 11 in Norway Opera House, by a score of 34-0. Superior passing ability to keep the ball and locate baskets gave Norway the victory over a team well known for their fast playing.

Unquestionably the visitors were lost on this surface and unable to judge distances. Their shooting, when able to get the sphere, was far below par during the first half, but improved before the game ended. Raymond Files for Casco usually good on long shots, failed to locate the rings in season to overcome Norway's big lead.

Another sure man was closely covered by Barker and rendered helpless. Several opportunities to score from fouls were lost, which had a depressing effect upon the losing team.

The Norway outfit started a winning streak from the start, showing strong improvement in the matter of handling the ball for team play. They are beginning to get whipped into shape by coach Parker, as difficult basket-caging and head work during this game demonstrated.

Desautel pulled away several long passes and throws. Klein was everywhere and had an eye like an eagle for the netted hoop. Barker dogged his opponent to the limit, leaving no opportunity to show fast stuff. This good work made a material difference with the original chasers explained both teams to the echo. Howard Shaw and Roger Sloan furnished music for the dance which followed.

The High School second team won over the Tigers composed of prominent athletes, the first and second string, score being 21 to 7. Many good shots were put through by the cubs in their endeavor to show class. There are several youngsters coming, who should be considered the varsity team next winter. The score:

NORTH WATERFORD

Installation

The officers of Waterford Grange were installed Friday, Jan. 11th. The service was performed in a pleasing manner by James Kimball of Round Mt. Grange, ably assisted by Evelyn McAllister, Marshall. The elected officers are:

Master—Ben Flint.
Vice-master—Guy Morse.
Lecturer—Ella Marston.
Steward—Howard Allen.
Ass't Steward—Linwood Flint.
Chaplain—Mary Lehnke.
Treas.—Ella Lehnke.
Sec.—Annie Hazelton.
Gate Keeper—David Lehnke.
Deer—Larson Allen.
Pomona—Lottie Morse.
Flora—Nora Abbott.
L. A. Steward—Marjorie Matherson.

Howard Allen, the retiring master, made a few remarks. As with former masters the order has prospered under Mr. Allen's leadership and many things have been accomplished with several new members and enthusiasm.

Waterford Grange was organized over ten years ago and for a number of years have occupied their own building. After the installation there was a nice lunch served which was enjoyed by all.

Rice Neighborhood

George H. Rice has bought a pair of steers from E. B. Hersey & Son.

Robert Kimball and Irvin Green are cutting timber for Charles Saunders.

Mr. and Mrs. Charles Hersey and Leroy Hersey went to Brighton Wednesday to the dentist's.

Elizabeth Saunders was home for over Saturday and Sunday.

The snow and wind keeps Charles Saunders and Charles Hersey busy breaking roads.

Mrs. Herbert Lord spent Tuesday with Mrs. Charles Hersey.

Albany Line

Mr. and Mrs. Ernest Brown and Walter Lord went to East Stoneham to attend the auction there of Ernest Bartlett, Tuesday, but the auction was called off and there will not be any this winter.

While returning home they saw a crowd over their house near Charles York's place. Old people used to claim it was a sure sign that winter had broken.

The water was eight inches deep on Hutchinson Pond Wednesday. There are a number of teams hauling lumber across the pond, and with the snow and wind it was almost impossible to get across.

A number are cutting ice on Pappoose Pond this week.

E. K. Shedd and B. J. Flint have been breaking roads for many days and say they never had so hard a time to get through as they have this winter.

Time and still the roads are drifting faster than they can shovel out and roll them down.

We are pleased to learn that Dr. L. Hall Truitt of Norway, who underwent such a serious operation recently, is on the road to recovery.

Wallace Jones is hauling wood to So. Paris from Fred Scribner's. He tipped his load over Monday in the drifts.

SUFFERING FROM COLD

If you shiver in frosty weather, if you have cold hands and feet, if colds are stubborn and frequent, then your blood may be thin and impoverished.

SCOTT'S EMULSION

has been correcting this condition for nearly fifty years. It possesses rare powers for creating natural body warmth, for charging summer blood with winter richness and strengthening both throat and lungs.

The Norwegian cod liver oil in Scott's Emulsion is now refined in our own American laboratories, which makes it pure and palatable. Scott & Bowne, New York, N. Y., 17-19.

HEBRON

A Former Student

"Fred A. Pottle, assistant in history and English at Hebron academy, resigned at the close of last term to enter the national service. He is now stationed at Fort Oglethorpe, Georgia, in the medical department. His place on the Hebron faculty has been taken by John B. Matthews, a graduate of the academy in 1914 and a member of 1918 class at Bowdoin college. Mr. Matthews' energy and ability enabled him to finish his college course in three and a half years, so that he can give undivided attention to his work at Hebron after the mid-year examinations at Bowdoin. Mr. Matthews is a graduate of the first training camp at Plattsburg, where he received a commission, but was later placed on the reserve list because of minor physical defects. Probably the argument will be made whereby he can give instruction in military training to the Hebron boys. At the academy Mr. Matthews will teach ancient, medieval and English history, and a course in business English.

There is more Catarrh in this section of the country than all other diseases put together and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment.

Dr. J. C. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the mucous surfaces of the system. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.

Cozy Though Snowbound

What matters it if you are snowbound—if you have on hand a good supply of SO-CO-NY Kerosene? You are sure of having plenty of light and heat—inexpensively, too; for even in the face of soaring prices SO-CO-NY Kerosene is the same economical product that it always was.

It is the best grade of Kerosene oil put out by the Standard Oil Company of New York. Easy to light, easy to use. Burns with a clean, odorless flame—so different from many other brands of kerosene.

Insist on SO-CO-NY, next time you order from your grocer. Then you're sure of what you get. Each gallon is dependable and pure. A gallon used in a Perfection Heater will give you eight pleasant hours of comforting warmth just when you want it and where you want it.

The roads in the town of Norway will measure between ninety and one hundred miles.

L. A. Carter and S. H. Millett are Norway's traveling jurors that have been drawn for the next term of the Supreme Judicial Court.

T. W. Conroy and George Westall spent the Sabbath in Lewiston.

The report that J. Wesley Swan, who has been missing since Nov. 14, had returned, is without foundation as far as we have been able to find out. His wife and children are still living in our village, hoping they may hear something about him. After many months, he came to and remembered who he was in Hastings, Texas. Norway friends sent

money and he returned here and went into the photograph business and stayed for several years. Later he became the official photographer for the Grand Trunk Railway and moved with his family to Montreal, where he died a few years since.

A man with two horses and cart load of fish was on our streets Wednesday. They were tom cods and he said they were as good as trout. He sold them for 20 cents per peck.

James F. Faver had a party of sixteen of his schoolmates, Saturday evening. C. B. Cummings' steam pipe on Main street near F. P. Stone's burst the past week and caused quite a cavity in the snow in its vicinity.

PICK UPS ON WHEELS

Mid-winter Los Angeles Times has arrived and been carefully examined. It usually takes a day or two to look it through and results in my wishing to go there to get rid of fuel bills and cold weather.

About as near as I have come to going is to write to A. B. Caswell of Harrison, who is wintering there and inquire about expenses. He says you can buy a ticket in Portland as cheaply as in Boston and two tickets several yards long good for return with lower berth going out cost \$346.83. They went from Boston to Los Angeles with only one change of cars and that at Chicago. They started Tuesday noon and got there at 2:40 p. m., Saturday.

Good room with hot and cold water cost \$5.00 per week at Hotel Munn, which is near the osteopathic college where he is being treated. Meals at cafeterias do not cost as much as at Greenleaf's in Norway. Mr. and Mrs. Caswell are liking and will probably want to go there or somewhere else every winter hereafter.

The Times contained 146 reasonable sized pages and much interesting reading. I notice Harry E. Andrews at one time part owner of the Lewiston Journal, is managing editor and a director of publishing company. He has been on that paper almost 30 years and I try to make myself believe that it is through his thoughtfulness I receive the annual Mid-winter number.

I have received a book from the "Private Papers of Martin A. Hayes, Lakeport, N. H., 1918." It is number 31 and presented by the author who makes books to give away. This one is the Proceedings and Addresses at the Gifford Centennial Celebration of June 17, 1912, permanently preserved and embellished with unique illustrations attractively setting off the scenic beauties of that town. One hundred copies were printed and half of them given the Gifford Public Library "with no strings attached." Surely, it is a valuable collection of historic matter and is much prized by me and in future years will become of priceless value to the descendants of that town.

The front piece is a picture of the Diamond Island House in the sixties. I recall when this house was built. The Bickford Store at Meredith Center was taken down and hauled with oxen to the Weirs from where it was towed to the island. The broad side of the building was hauled intact and occupied all the road and more too, making passing difficult.

Who did the hauling, I can't say, but think Dave Batchelder of Laconia had something to do with it. As a child I was struck with great wonder when it passed our house on its way to the Weirs. The old Bickford store cellar can now be seen opposite the house of Nate Plummer at Meredith Center. The lot is owned by some of the Bickford relatives living in Massachusetts.

An exchange contains the following:—"The water font of Mrs. John R. Grant, Portland street, burst Tuesday, wrecking the stove and doing considerable damage to the kitchen. Mrs. Grant was within two feet of the stove at the time, and barely escaped injury. The damage will amount to \$25.00."

Thrift stamps grow into war savings stamps and the latter into war savings certificates. The thrift stamps cost 25 cents each and war savings stamps \$4.15 if bought this month. Next month they will cost one cent more. The war savings certificate when filled, represents \$100.00. Twenty of the thrift stamps represent, with the addition of the 12 cents, five dollars, and twenty of these make the certificate of \$100.00. The whole cost of the war savings Certificate is \$82.40 and it represents \$100.00. That is, the Government pays you interest at the rate of 4 per cent, compounded quarterly until the amount you have paid and the interest amounts to the full value. This is a perfectly safe investment and good interest on your money.

John A. Woodman shows me a letter from E. D. Grant of Moorhead, Minn., written last month in which he says the past season has been very dry and crops have suffered, but as the three previous years have been wet, the dry season was really needed.

Mr. Grant has added to his farm another section of land, having bought a quarter-section of Iowa parties for \$55.00 per acre—the same price it was sold for nine years ago. The Iowa folks were farming at arm's length and did not get satisfactory returns.

This purchase with land previously owned gives Mr. Grant a farm of over 2,600 acres and he plans on planting next season 1,000 acres to wheat; 500 acres to oats and barley, 320 acres to potatoes; 160 acres to corn and about 100 acres to flax.

Some big lay-out for crops! A total of over two thousand acres under cultivation. He adds "balance of farm will be used for hogs and pasturage."

He made it pretty good on pigs the past season selling 135 "right out of the pasture for \$16.50 each to go to Nebraska to eat up their soft corn. His hog family is left intact for another season's operations.

He says this: "Out here we don't expect to make any money so long as the war lasts, expenses are too high, but we are determined to grow all the grub we can. Everybody here is very patriotic, although we do not think it quite fair for the Government to put a price of \$2.00 on wheat and let everything else we have to buy go wild."

"My brother-in-law, Ed. Benedict and I went down to the International Stock Show in Chicago and stayed four days and saw some good stock sold at long prices. A Scotch bred Shorthorn cow with heifer calf by her side brought \$4,900. We are turning our attention more to good stock each year and are gradually changing our grades to pure blooded stock."

I bought a new "Studebaker Six" last Spring and had the luck to have it stolen in September. It was taken in the daytime while standing in the streets of Fargo. My wife left it without locking.

Advertiser for and near and offered \$100 reward, but have not found it yet and probably won't.

Mr. Grant visited the Woodmans in Norway a few years and called at this office. At one time he boarded at the City Hotel, Manchester, N. H., when it was run by Mr. and Mrs. Woodman. This was when he was selling books and before he took to farming.

Put an ad in the Intelligence Column, it will surely bring results. Seeing for yourself is believing. Try it!

Blankets and Robes

Present market conditions indicate that an advance in price is not unlikely for all grades of stable and street blankets and robes. Jobbers stocks are reported to be unusually low and on many leading styles they are entirely sold out. This means a scarcity when retailers present stocks are exhausted, as it will be hard to get the desirable styles.

We have an unusually full stock of stable blankets in burlaps and ducks and in all the different styles of fasteners and sureties. Prices on these goods are very low, considering their scarcity and the difficulty of getting them. Duck storm blankets in medium and large sizes.

WATERFORD

William Douglass

William Douglass was born in Waterford, June 10, 1836. He was the seventh child in a family of ten, born to Rev. John Abbott and Lucy Abbott Douglass.

Rev. John Abbott Douglass was the pastor of the First Congregational church of Waterford for over fifty years. He was educated in the Waterford public schools and at Bridgton Academy and for some time read law with an uncle, and though never applying for admission to the bar, yet gained a knowledge of the profession that made his assistance and advice in legal matters much sought after by members of the community.

For some time he followed the trade of a machinist, but this was prohibited by an injury to his right hand from which he never fully recovered. Sometime in the eighties he held the office of sheriff of Oxford County, where by his scrupulous attention to and efficient performance of the duties of the office he won the highest esteem of all.

He was for fifty-two years a member of Mt. Tir'enn Lodge, F. and A. M., of which he was at one time master and he was also a member of the Royal Arch Chapter and the Council located in Bridgton. Mr. Douglass was very appreciative of the beauty of the ritual and of the value of the moral and spiritual teachings of the order and few men in this section were so well versed in Masonic lore. He was also a member of Keoka Chapter, O. E. S.

Throughout his four score years, Waterford has been his home. The present winter, being alone and in feeble health, he had taken quarters at the Lake House where he passed away on the tenth instant and funeral services were held on Sunday afternoon attended by a large number of his friends. Rev. G. W. Sias officiated, paying tribute to him as a careful and conscientious workman, an intelligent and interesting companion, a frank and courteous friend, a supporter of good causes.

Of his immediate family he is survived by one sister, Mrs. Clara Eveleth of Hallowell, who was present at the funeral. Others from out of town were Abbie L. Eveleth of Waterville, Mr. and Mrs. John Archer Eveleth of Marblehead, Mass., and George Wells of Amesbury, Mass. Interment was made in the family lot in Elmvale cemetery.

Eugene M. Dudley, who has been confined to his room for over a year, walked down stairs, Monday.

E. B. Pike is on the sick list.

The Sunday services are being held in the vestry during the very cold weather.

At the annual meeting of the Missionary Society, Tuesday, the following elections were made:

Pres.—Susan H. Wilkins.

Vice Pres.—Ellen Knight.

Sec.—Mrs. G. W. Sias.

Treas.—Katherine Baird.

There will be a circle supper at the vestry, Friday evening, Jan. 18.

The officers of Keoka Chapter, O. E. S., and of Mt. Tir'enn Lodge, F. and A. M., will be installed on Friday evening, Jan. 25. The exercises will be open to members of the orders and their families.

H. P. Hammond has been helping H. D. Hammond get his ice away from the King mill pond and he also helped Sewell Rove one day.

FEED THE BIRDS

The deep snow covers their usual food

—insects' eggs and larvae and the seeds

of weeds—so they will starve unless we

feed them. Give them "hayseed", chaff

from the barn floor, crumbs, scraps of

meat, bones and suet, anything eatable,

and they will repay you a thousand fold

by their work in the garden and orchard.

Do it now. Fasten the meat scraps

and suet securely to the trees and see how

eagerly the chickadees and wood-peckers

go to it. Tread the snow down hard and

scatter the hayseed and crumbs there, or

put the food on a board or box and watch

the juncos and tree sparrows fill up.

Put out chaff and grain for the quail

and meadowlarks in the pasture. They

work for us all summer long, eating in-

sects.

Keep it up while the snow lasts. It is

a patriotic duty. Food will win the war,

and more birds mean better crops and

more food for us and our fighting men.

Died at Ninety-Six

Frank J. Cook has received news of the

death of his mother, Mrs. Abbie J. Cook,

aged 96, which occurred Wednesday at

her home in Windham, the funeral will

be held there Saturday morning, Monday.

This aged lady is the last of a family of

twenty-one children, a native of Durham,

she has lived in Windham more than

sixty years.

She was well preserved and never was

ill until a short time ago, so ago de-

prived her of good health. Her husband,

the last of a family of eighteen children,

died six years ago at the advanced age of

94. He was the first in Windham to re-

ceive the Post Cane. Mr. Cook was also

hardly with faculties keen to the last.

They had been married over sixty years

until death caused the separation.

Adventures of Hugh Pendexter

Hugh Pendexter entered the Journal

office at Lewiston, Wednesday and de-

manded someone would listen to his

troubles. A reporter was called and

turned his ear. Mr. Pendexter earnestly

began:

"Bret Harte wrote one novel, pro-

nounced by critics to be a failure. It had

for the opening sentence, 'Show.' Just

one word. It told everything. If ever

the Lewiston branch of the Grand Trunk

is novelized it should have the same open-

ing."

"Why the blast?" asked the Journal

reporter.

"It's no blast. It's history, also

tragedy," explained Mr. Pendexter.

"With a Biblical allotment of three

score years and ten on this sphere, pro-

vided we can collect, I spent six or seven

hours between Lewiston Junction and

Lewiston, yesterday, and to escape mak-

ing it a week I walked two miles in. One

man said it was but a mile, but he was

a rock-ribbed liar. He came from Win-

stead, Conn."

Observing that Mr. Pendexter was

slightly peeved the reporter soothingly

said, "Sit here on this mossy rock, little

one, and tell me the story of your life."

"It's like this, replied Mr. Pendexter.

"Yesterday's branch train was rather

late for Valentine's day, but seemingly

in good season for Easter. Then the first

man, a rollicking jovial chap, came into

the stalled car and gleefully announced,

"Only six inches water in the boiler,

and unless help comes soon we shall shut

the fires." On being asked if other en-

gines had been sent for he answered in

the affirmative, but expressed his opinion

that possibly the engine ahead would re-

fuse to keep the train.

"By this time the conductor had left

for Lewiston to report conditions and

heroically remained there, realizing that

if he returned he would be but one more

for the tortured steel to pull."

"And when the blow blew?" sym-

pathetically murmured the Journal report-

er.

"And I blew," appalled Mr. Pendex-

ter. "When the branch got lost like

that the Grand Trunk ought to advertise

for it."—Lewiston Journal.

Annual Meeting

Hon. J. A. Roberts, commissioner of Agriculture is expected to be present as speaker of the day.

Alleged Forger Captured

William H. Wheeler, who is wanted in Oxford County for an alleged check forging escape about Norway and South Paris, has been located at Winchester, Va. Sheriff Harry D. Cole and Deputy Sheriff Leon M. Small of Mexico, armed with requisition papers from Governor Milliken, have gone after the prisoner, who is being held by the state police.

Wheeler, who had been living in Norway, was arrested last May on the charge of passing worthless checks in South Paris. He was bound over in the Norway Municipal Court in the sum of \$500, bail being furnished by his wife and her mother, Mrs. Wilson Larabee, who is owner of a place at North Buckfield. Indictments were found against him at the October term of Supreme Judicial Court, but Mr. and Mrs. Wheeler were not to be found. Mrs. Larabee and the officers started a country wide search for the fugitives.

It has been learned in the mean time that Wheeler is familiar with court proceedings having done a year in the Showhegan jail for forgery, but made his escape. He was arrested at Bath, Winchester and other places.

This is surely a "find" and his apprehension will prove a pleasing episode to the county officials, also to Mrs. Larabee, who sacrificed her right in a small home to give an ungrateful son-in-law freedom before his trial.

Wheeler returned with the officers without trouble this week and is once more in the county jail. His wife and fourteen day old infant returned also and will stay with relatives at Buckfield. The old game with checks at Richmond, Va. was the cause of his arrest it is claimed.

NUX, IRON, PEPSIN AND SARSAPARILLA

The combination of two great medicines, Hood's Sarsaparilla and Pepton, by taking them in conjunction, one before eating and the other after, brings into co-operation the above-named substances, best for the blood, nerves and digestive organs.

This combination is recommended in cases of scrofulous, or rheumatic, anemic and nervous, or where the blood is both impure and pale, deficient in iron—one of the most common disease conditions of the present day.

In cases where a laxative is needed, Hood's Pills should be taken. They work in perfect harmony with Hood's Sarsaparilla and Pepton, and are mild and efficient.

Notes From Local Board

Misapprehension may exist in some cases, as notice of classification is sent to registered men on account of what may appear to be error, in placing in a higher or lower class, through good judgment, and a "square deal" policy, which protects the Government on the one hand and the individual on the other, would warrant, and for this reason it has been thought best by the Local Board for Oxford County, to clear the situation as far as possible, by stating that discovery of conditions materially different from those shown by the Questionnaire, will simply justify the Board reclassifying any case, at any time, in order to conform to actual fact.

3050 men are registered in this County making a vast amount of Material to be examined, but ample authority exists for the correction of any real error which may be discovered.

The final 5 per cent. of Questionnaires were sent out on January 9, but some will not reach the registrant, on account of change in location, and the board will appropriate information giving the address of any who may not receive the Questionnaire, as no effort will be spared to reach every man thus removing the necessity of treating him as a delinquent. This applies particularly to all men who are enlisted in any branch of the service, no matter where he may be.

N. Allie Crommett, a former resident of Norway, has sold his taxidermy place at Lake Worth, Florida, and moved his stock to Miami, Fla., and has taken a half interest in the Tropical Garden Alligator Farm. They have the largest stock of live alligators in the state and do a good deal of taxidermy work and supply most of the places around there with very mounted specimens of alligators and alligator heads. They also deal in hides, buying mostly from the Seminole Indians. There is also a fruit grove in connection with the farm. Mr. Crommett says that he has met several people from Maine there this winter.

Chester Holden and son Paul are boarding with Mr. and Mrs. Dennett Cotton on Danforth street. Harry Holden is assisting with the cooking and chores, and also caring for Mr. Cotton, who has been an invalid for two years.

Mrs. Sadie Prince, who has been ill with bronchitis nearly two weeks, is recovering slowly and about the house again doing light work.

Roy Pratt has returned from the Bath ship yards and has employment in town. Howard Maxine is working in the Tubbs Snowshoe factory.

Almore Everett is clearing a lot near Round Pond and hauling the product to the village. He commenced with one chopper, but now has three cutting logs, bolts and cord wood. One hundred cords of dry wood were sold in the village from which he could have realized a fancy price delivered on the cars. It was distributed locally to relieve the shortage. Two double teams are hauling green wood that is snapped up by anxious consumers.

Mrs. Susan Craigin, Winter street, has been suffering with sciatic rheumatism, Rose Hamlin has been caring for her. Her daughter, Harriet Craigin, who passed a short vacation here, has returned to her school at Rockland, Mass.

The Novelty Turning Co. were forced to give up their day run until matters are straightened at the power station. They started Monday working nights as much power can be furnished at that time to carry on the business.

The good old days of barges are not over yet for Norway and South Paris are concerned. Since the street cars have been rendered useless, logging sleds with their bodies fitted with seats and other contrivances have been used as connecting links between the two villages. It is an uncomfortable means of transportation for modern times, but they get there.

Carroll, Jellerson Shoe Co. changed to their own steam power Monday and will run in that manner until repairs have been completed at the Oxford Electric Co.

Mrs. Etta C. Ridlon has finished work at the Z. L. Merchant store after nearly 26 years services in this store. Twenty-five years ago last March Mrs. Ridlon entered the employ of S. B. & Z. S. Prince, as head clerk, and when the business changed hands six years ago last August, she continued with the new firm, and has been head clerk continuously and has made many friends.

Abbie Curtis went to Sumner the 9th to attend the funeral of a cousin, Mrs. Edward Tuell of Watertown, Mass.

Mrs. Mary Cleveland is spending some time in Otisfield.

Mrs. Willard Lord, Mrs. Sherman Ordway of South Paris, and Mrs. Addie Connor of Albany, were recent guests of Mrs. A. E. K. Grover.
